PREVIEW

THE LEGEND OF ZELDA: TEARS OF THE KINGDOM

GENRE: ACTION-ADVENTURE GAME SYSTEM: NINTENDO SWITCH

It's been a long time coming, but the wait to save Hyrule once and for all is almost over! The Legend of Zelda: Tears of the Kingdom is a sequel to Breath of the Wild and it'll likely follow on from where the first game left off. It's been hinted that Ganon will be making a return, which would be pretty epic! A lot about the game has been kept under wraps. However, from what we've seen in the trailers, it seems like players will get to explore more of Hyrule. It looks like the adventure will take us to the skies and possibly even the dark underworld too!

We'd love the sequel to improve on what we saw in the first game as well as add some new features. We'd like to see varied shrines, new armour, and more weapons from other Legend of Zelda games.

While there was plenty of action in BoTW, we've got a feeling the sequel will take a darker turn. Bokoblins look a bit different from what we remember, with larger horns. Be prepared to duel completely new enemies too!

After defeating Calamity Ganon in the first game, we felt like there were some missing pieces to the story. His origin is still a bit of a mystery, and we'd like to know more about his evil power, Malice. We hope the sequel will have the answers we're looking for!

With BoTW being one of the best-selling Switch games, we have high expectations for the sequel!

ONE PIECE ODYSSEY

One Piece Odyssey follows **Luffy** and the **Straw Hat Crew** who are stranded on a mysterious island called **Waford** following a storm at sea. This exciting adventure takes an unexpected turn when you meet some new characters who live there.

Along the way, you'll defeat new enemies and uncover ancient mysteries. Since it's a turn-based game, you can step into the shoes, sandals, and hooves of **Luffy**, **Zoro**, **Chopper** and other fan favourite characters. They all have unique exploration skills which comes in handy and is definitely an interesting touch!

We think the unexpected and random scenarios stops the gameplay from becoming too repetitive. Situations like **Usopp** being intimidated by an enemy and needing rescued will keep players on their toes!

Fans of the anime will love this game but if you haven't watched the show before, don't stress! With such an action-packed adventure, you don't need to be a **One Piece** expert to play.

WRC GENERATIONS

WRC Generations is a racing game about the **World Rally Championship series**, which is a famous rally racing event that takes place all over the world every year!

If you enjoy beating your track times, there are plenty of cars to experiment with as well as tracks to conquer in **WRC's** Quick Play game mode. We thought this was very easy-going and fun. The game is a rally simulator outside of that though, which means that it's not very casual.

Career Mode does take a while to play due to the length and difficulty of some of the events. You'll also need lots of practice to get good at team management, budget balancing and repair allocation if you really want to do well at it. If you just want to drive some cars, then you might prefer something more arcadey!

THEM'S FIGHTIN' HERDS

Them's Fightin' Herds is a fighting game inspired by the world of **My Little Pony: Friendship is Magic** and the controls and combos of **Street Fighter**!

In this brawler, you play as various animals and fantasy creatures as they face-off to try to work out which one of them is the champion worthy of a magic key.

Outside of the traditional Arcade and Multiplayer fighting game modes, it also has an inventive Story Mode, which we love! This mashes up the gameplay of a fighting game with exploration and platforming which reminds us a little of the classic game **Zelda II: The Adventure of Link**.

You wouldn't expect ponies and fighting games to work well together – but it really does! We think brawling fans will really enjoy **Them's Fightin' Herds**. It even has online play, so you can challenge your friends to a battle!

A LITTLE TO THE LEFT

Love tidying up? Well, we have a game that will convince you it's fun! **A Little To The Left** is a puzzle game that's all about tidying, organising and arranging!

There's LOADS to do here, with over 75 scenes to sort out! There are even some puzzles with more than one answer, and you can repeat the level to find each resolution.

Some puzzles were too tricky, but luckily there's a skip function if you're really stumped!

But for us, one thing really stood out in **A Little To The Left**. A total troublemaker, a monster of mayhem – the cat! Occasionally a little paw or tail would sweep your delicately placed things about. Adding cat-chaos to puzzles about tidying was genius!

A Little To The Left is a super-fun game with a super-rewarding pay-off, and it kept us entertained for hours!

We'd recommend it to players of all ages – maybe your family would like a turn?!

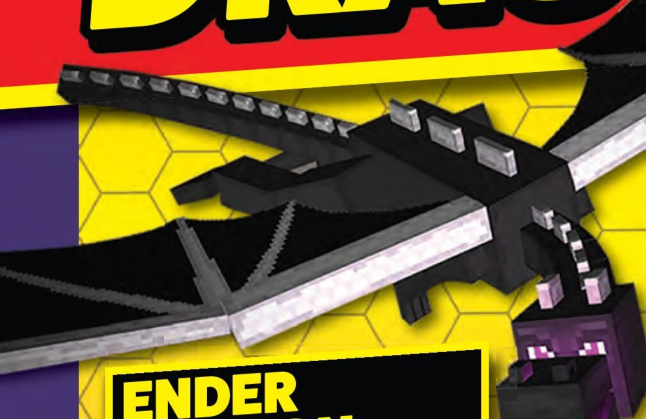
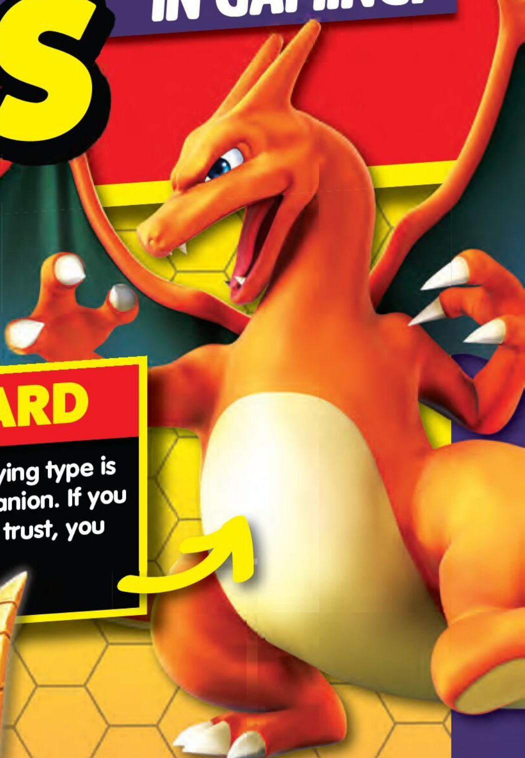
DARING DRAGONS

WE'VE ROUNDED UP THE BEST DRAGONS IN GAMING!



ENDER DRAGON

Slaying the **Ender Dragon** is a task for only the bravest of **Minecraft** players! You'll need a steady shot as it swoops and spits fireballs if you want to get your hands on a Dragon Egg.

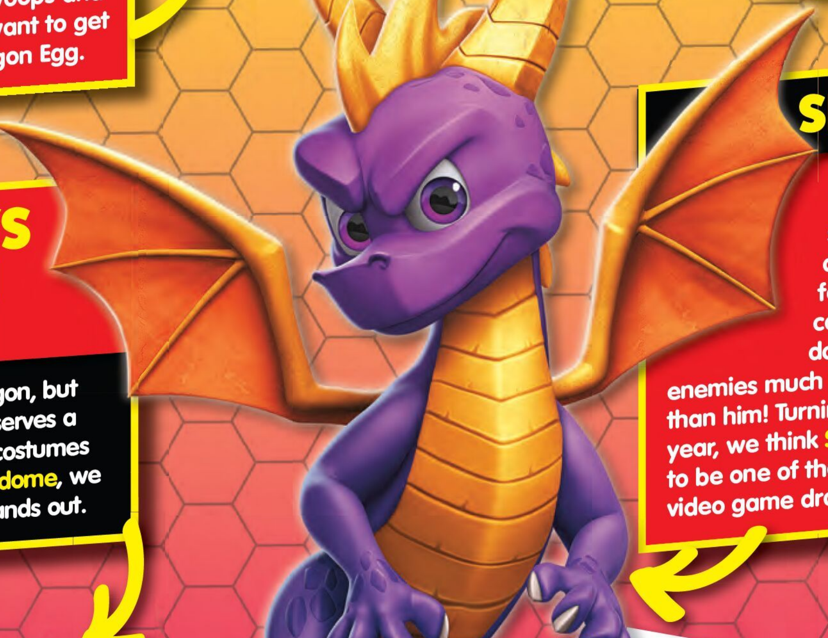


CHARIZARD

This stubborn Fire-Flying type is an epic battle companion. If you can gain **Charizard's** trust, you must be an expert **Pokémon** trainer!

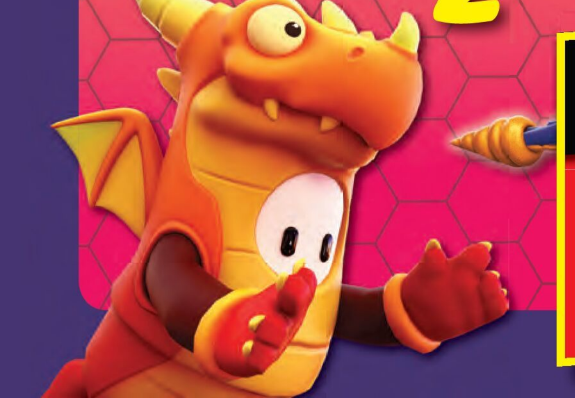
FALL GUYS DRAGON SKIN

Not exactly a real dragon, but this bean imposter deserves a mention! From all the costumes you see in the **Blunderdome**, we think this one really stands out.



SPYRO

Spyro might be small, but don't be fooled – he can take down enemies much bigger than him! Turning 25 this year, we think **Spyro** has to be one of the most epic video game dragons ever.



RUINED DRAGON

Mario has faced lots of bosses over the years, but the **Ruined Dragon** is by far the most epic. AKA the **Lord of Lightening**, its electrifying attack makes for an unforgettable fight!

SHARPSHOOTING

"Use **Cassidy's** tactical to stick your opponent with a grenade and finish them off with a revolver!"

WRECKING BALL

"This character is perfect for moving around quickly with the grapple to hoist you in the air and the ball to roll around with ease."

DID YOU KNOW WRECKING BALL'S MOBILITY MAKES HIM DIFFERENT FROM OTHER TANK HEROES?

MOVE AROUND

"Moving left or right, jumping or crouching makes it more difficult for the enemy to hit you as you are constantly moving where they're trying to shoot!"

SNEAKY TACTIC

"On **Kings Row**, if you spawn on the correct side map you can go through a path on the left that no one goes down. Pass through houses until you find a door in a house that gives you easy access to where enemies spawn."

CHARGE UP

"When using **Widowmaker's** sniper, you can charge the power of the shot by waiting a couple of seconds. I'd say charge just over 60% to get an easy kill!"

WILL'S OW2 TOP PICKS

FAVOURITE CHARACTER

"**Cassidy**. He sounds like he's from the Wild West which is super-cool!"

FAVOURITE SKIN

"Demon for the character **Orisa**, it looks awesome!"

FAVOURITE MAP

"**Watchpoint: Gibraltar**. I love the hyper-modern underground area then going outside to the coastal panorama!"

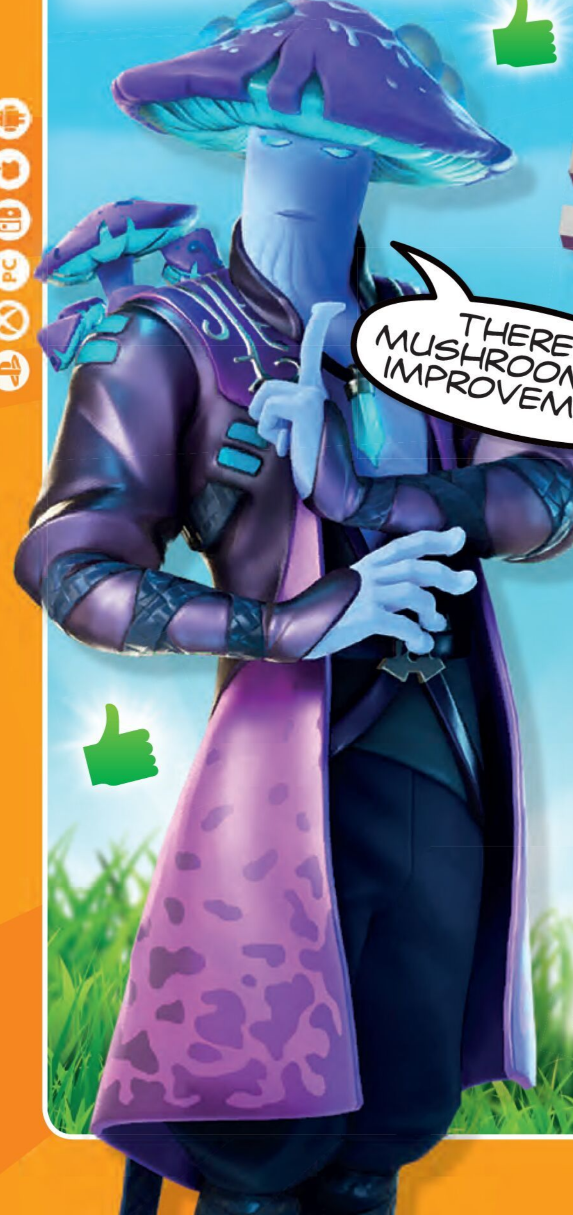
FORTNITE DOS & DON'TS!

Going for the #1 Victory Royale? Here are our tips!



THERE'S MUSHROOM FOR IMPROVEMENT!

DO! PLAY ZERO BUILD

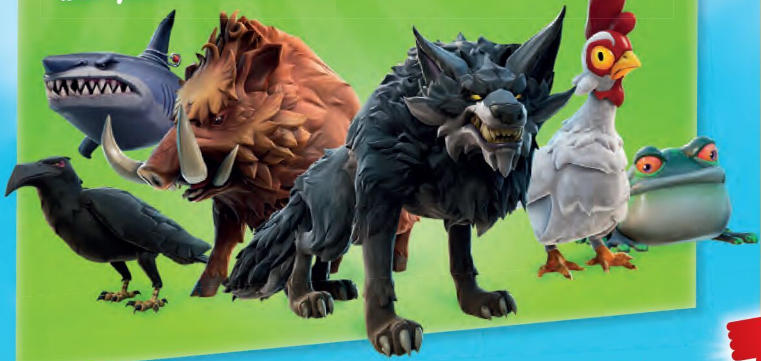
Chapter 3 brought in Zero Build, a less intense mode that plays more like a normal shooter! Sometimes it's nice to mix things up, so you should definitely give Zero Build a try.

DO! TRY OUT THE NEW GUNS

Fortnite is always adding brand-new arsenals of weapons and equipment, and you should be sure to try them all out when they drop so you know what you like best!

DO! RIDE ON WOLVES AND BOARS

There are lots of ways to get around, but the coolest by far is riding on the back of the Island's wildlife. Not only is it super-cool, but you'll make less noise than in a car.



DO! REMEMBER YOUR EDIT PLAYS

A good edit play in Fortnite can give you an angle on an opponent where there wasn't one before! Remember what each edit pattern does, and you're already one step closer to a win!

I'M IN A CREATIVE MOO-D!

DO! PLAY CREATIVE MODE

You'll get even more XP for playing in Creative Mode! It's worth doing, especially if you're trying to get into the last levels of the Battle Pass for those exclusive skins.

DON'T!

GIVE UP ON BUILDING

Just because there is a Zero Build mode now, doesn't mean that you shouldn't play the mode where you can build, too! Building is what sets Fortnite apart from the competition - keep playing and you'll be cranking out 90s like the pros in no time!

FORGET TO CARRY HEALS

You should always use at least one slot to carry heals or shields, in case you need a top up after a tense fight! No one likes to be attacked while they're looking for a medkit or a big potion.

LEAVE TEAMMATES KNOCKED OUT

If you're playing in Duos, Trios or Squads, remember to rescue your teammates! If you don't, you may soon find yourself outnumbered by enemies – and that'll make getting a Victory Royale really hard!

WELCOME TO HOGWART

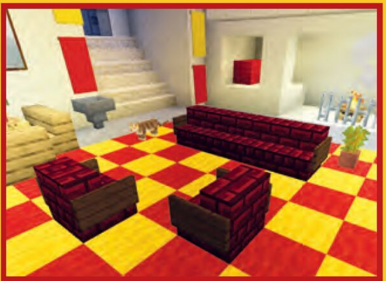
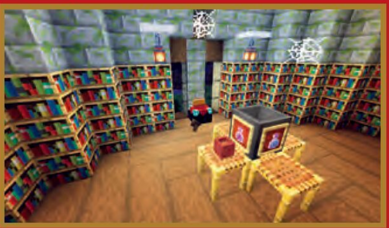
★ Your house common room is the perfect place to chill out! Decorate yours with your house colours and add loads of cosy touches to make it feel like home, like some comfy sofas and a campfire fireplace. You could even spawn in a pet kitty like **Hermione's Crookshanks**!



Craft Class!

★ It wouldn't be much of a school without a **Potions** classroom! With walls full of spell books, an enchanting table and even a cauldron, this is the perfect place to brew some **Polyjuice Potion**!



Sail Away!

★ After you've hopped off the **Hogwarts Express**, it's time to sail to the boathouse! It's the perfect place to watch a fireworks display, so grab some gunpowder and dye to craft your own firework stars!

ethan

Would you rather be Link or Super Mario's sidekick?

● "Super Mario's sidekick definitely, he is always smiling and happy so it would be great to hang out together!"

Live in a Roblox or Minecraft world?

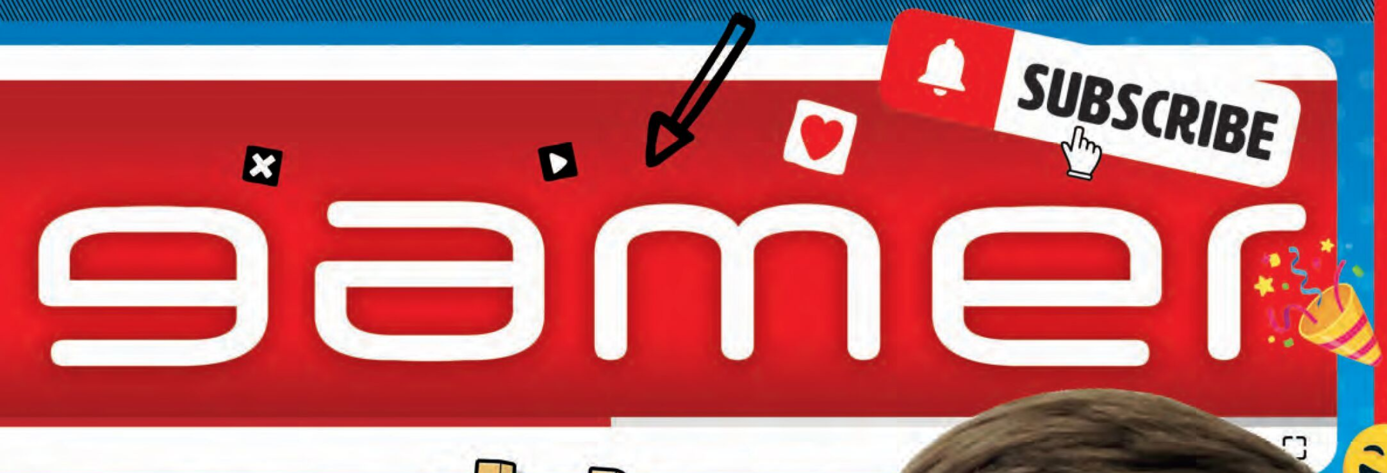
● "It would have to be Roblox, I could jump into different open world survival games, then test my parkour skills before going to work in a pizza place!"

Have a droid sidekick or an X-Wing from Star Wars in real life?

● "I think having a droid sidekick would be a lot of fun, especially if he was like R2D2 who's really smart, brave and funny too!"

38:00 / 52:00

HAN! ...PLAY ALONG AND MAKE YOUR OWN PICKS!



Tame a wolf or an ocelot in Minecraft?

● "Probably an ocelot — they're super-cute, and they can scare away Creepers and Phantoms!"

Play Overwatch 2 or Fortnite?

● "Overwatch 2 for sure! The characters in this game are really cool, especially Reinhardt whose hammer and abilities are so fun to use."

Play only racing video games like Mario Kart or only fighting games like Super Smash Bros.?

● "I would play only fighting games like Super Smash Bros. because I'm not very good at racing games - I always crash!"

Have Sonic's superspeed or Shadow's chaos powers?

● "Sonic's superspeed for sure, so I would never be late, and I could speed around the world and see so many new and different places!"

Be a Pokémon champion and beat all the gym leaders or complete the Pokédex?

● "Be a Pokémon champion, going around all the gyms and winning battles would be such an amazing experience!"
